(C) (33-35)

Katherine: Mom, I can't stand anymore. I've been thrown up three times so far.

Mrs. Wu: What did you eat today?

Katherine: Nothing special. I only drank the milk on the table for brunch.

Mrs. Wu: What?! Oh, no. The milk I took out of the refrigerator this morning had turned bad, so I wanted to take it away later. No wonder you feel uncomfortable. Let's go to the hospital right now!

Katherine: But, mom, the hospital doesn't open today. Maybe we only can go to take some medicine in the pharmacy.

Mrs. Wu: OK, but you still have to go to a doctor tomorrow.

Katherine: I will.

Fresh Hospital

(E) (39-40)

It has become a big issue that the price of oil is getting higher and higher. For those who have to drive to work every day, it has become their nightmare, especially when they do not have any idea how to make more money. In fact more and more people are worried about their wallets are getting thinner and thinner, so they start to think if it is possible to walk or ride bicycles to work, but not to drive. Therefore, on the contrary, the problem not only is good for our environment but also make the public transportation be used more often. Once fewer and fewer people drive or ride motorcycles on weekdays, then the air pollution may not be so serious. What's more, walking is also a good way to everywhere, isn't it?

issue 議題；nightmare 惡夢；on the contrary 相反地；environment 環境；

public transportation 大眾運輸；pollution 污染

- (A) 39. What is “the problem” about?
- (A) The price of oil is getting higher and higher.

 - (C) People's wallets are getting thinner and thinner.
 - (D) The air pollution is getting more and more serious.
- (C) 40. Which one is NOT the writer's thought<想法>?
- (A) More people may go to work on foot.
 - (B) More people may give up driving to work.
 - (C) More people may become thinner and thinner.
 - (D) The environment we live in will become better.

(F) (41-42)

Are you smart? Do you know how high your I.Q. is? In 1904, the French psychologist, Alfred Binet, created a test called “intelligence quotient” (=I.Q.) to tell how smart a person was.

In the world, about 95% of persons have an I.Q. of between 70 and 130. If a person have an I.Q. of 144 or higher, he (or she) is considered a “genius”.

However, some people may get low scores on the I.Q. test. It doesn't mean that they are “stupid”. It just means they need more teaching.

psychologist 心理學家；**intelligence quotient** 智力商數；**genius** 天才

- (B) 41. Which of the following is true?
- (A) Intelligence Quotient is the name of a scientist.
 - (B) You can know how smart you are by taking the I.Q. test.

 - (D) A person who has an I.Q. of 180 will be successful in everything.
- (A) 42. If you get a low score on the I.Q. test, what should you do?
- (A) Don't give up! Try other ways of learning.
 - (B) Go to see a psychologist and take some medicine.
 - (C) Blame your parents and cy all day.
 - (D) Do more exercise and you will become better.

(G) (43-45)

Nowadays, more and more people can't control their expenses because of the convenience of using credit cards. All of those people get used to paying with their credit cards every day. Until the end of the month, they are often frightened by their bills of credit cards. So all they can do is borrow money from another bank to pay for their bills. However, if they don't try to change their habits of shopping with credit cards, the same thing will happen again and again. In fact, credit cards are not only convenient to use but also safer when you are traveling in other countries. You don't need to worry your cash could be robbed at any time. What's more, credit cards are often light and easy to bring with you. Even though they are stolen, just make a call to the banks right away. Your money would not be gone. In short, how to make use of credit cards wisely is the most important thing before you get your first one.

control 控制；expense 花費；get used to 習慣於...；frightened 驚嚇的；

cash 現金；rob 搶劫
